

Due to the success of last years shipment of rally cars in our new Motorsport Container, Searoad Logistic's is please to be able to offer their services to all Rally Xtreme competitors for the upcoming season. Last year, Searoad event managed the whole weekend by supplying service truck, race fuel, salvage vehicle, trailer plus a warehouse to prep the cars and wash them down after the event

Removable internal ramps within the container allow cars to be stacked 2 high and still have plenty of room for tyres and other spares.

This container is available for any Motorsport Event, be it in New Zealand or around the world. This allows for costs to be split between four competitors and makes flying in to an even a real financial option.

We have just ordered a 20ft container to be constructed, capable of shipping two cars plus spares. For further details contact Mark Pedersen [markp@searoad.co.nz](mailto:markp@searoad.co.nz) or 0800 SEAROAD (0800 732 762).
